BUSINESS

Bus Route- Gate 2 Bus stop.

BOD members engaged in a lengthy discussion regarding the condition of the roads at the Gate 2 Bus stop. A letter from the superintendent of the School bus company was received by our BOD. It stated that if road area in question is not fixed by Monday, the school bus will start picking up students on Silver lake Road.

VP Don Hiorth met with KOWAL paving at 4:30 PM, 1/21. They discussed options such as using RCA(Recycled Concrete aggregate materials) on this portion of the road. The worst section is between Fox and Hound roads. BOD will have to wait for a quote from Kowal Paving for putting down 3" of RCA down on top of surface, and rolling it out. This will be very expensive.

The consensus was that we need to get the Road crews together to blow up maps and have an engineer come in to do an analysis of the roads. BOD agreed to have designated road crew reps from each gate attend a workshop meeting in the near future.

The BOD decided to immediately send out article to residents explaining to parents that we cannot fix the school bus stop properly right now.

Article to be posted on web site, social media and sent to we-mail distribution list

As soon as possible.

Meeting adjourned at 8:20PM.
